MANAGEMENT DISCUSSION AND ANALYSIS

Business overview

We are a pre-revenue China-based drug development company currently focusing on the development of dorzagliatin, a first-in-class oral drug for the treatment of T2D. We filed an Investigational New Drug ("**IND**") application with the NMPA for dorzagliatin under Category 1.1 (New Drug) in 2012 and initiated a Phase Ia clinical study of our novel glucokinase activator dorzagliatin in September 2013. We also filed an IND application with the U.S. Food and Drug Administration ("**FDA**") for dorzagliatin in March 2015. We have completed eight Phase I trials in China, four Phase I trials in the United States, one Phase II trial in China, and two Phase III trials in China. Our two Phase III trials enrolled 1,230 patients across 110 sites throughout China.

Both Phase III trials (also known as the SEED and DAWN trials) met their primary endpoints, and the safety and tolerability profile of dorzagliatin was good during the trial period. The final 52-week results of both Phase III trials were announced in 2020. In March 2021, we submitted a NDA for dorzagliatin for the treatment of T2D to the NMPA, and we received notification from the NMPA that our NDA was accepted in April 2021. The NDA is currently under active review by the NMPA.

In September 2021 at the 6th China BioMed Innovation and Investment Conference, certain principal investigators from our SEED Phase III trial presented the extensive results from the clinical study called DREAM. The main objective of the DREAM study was to evaluate the ability of T2D patients who participated in our SEED study and achieved glycemic control as defined by investigators, to maintain normal to near-normal HbA1c levels[1] (i.e., remission of T2D), without any glucose-lowering medication after the completion of the SEED study for a minimum follow-up period of 52-weeks. The results showed that the subjects had a 52-week diabetes remission rate of 65.2% at week 52 (95% CI, 53.4%, 77.0%)[2] during the research period.

In May 2022, we published two peer-reviewed papers on the Phase III clinical trials results of dorzagliatin in ***Nature Medicine***, an international top-medical journal. These two papers described and analyzed the clinical efficacy and safety characteristics of dorzagliatin monotherapy (SEED) in drug-naïve Type 2 diabetes (T2D) patients and the combination therapy of dorzagliatin and metformin (DAWN) in patients who failed in metformin adequacy therapy for the treatment of T2D, respectively.

1 HbA1c levels< 7.0%.

2 Calculated using the Kaplan-Meier methodology.

In June 2022, three research findings on dorzagliatin were presented at the 2022 82nd American Diabetes Association ("**2022 ADA**"):

1) An oral presentation at the 2022 ADA Scientific Sessions on the results of SENSITIZE, a clinical study demonstrating dorzagliatin improved insulin secretion and glucose sensitivity. The study was initiated by Professor Juliana Chan, an internationally recognized endocrinologist from the Chinese University of Hong Kong. SENSITIZE explored the effects of dorzagliatin on patients with recent onset T2D and glucokinase-maturity-onset diabetes of the young (GCK-MODY or MODY-2). The study results, using glucose clamp technique,

As we continue to progress with our development of our lead candidate, dorzagliatin, we are also moving forward with preparations for the drug's life cycle management for expansion of patient population and entering into new indications. We filed applications and secured patents for fixed dose combinations of dorzagliatin with select approved oral anti-diabetes therapies. We have also initiated pre-clinical development and filed patent applications globally for a second generation glucokinase activator, based on our experience and insights gained in working with dorzagliatin.

Other gains and losses

Our other gains and losses consisted primarily of gains due to fluctuations in the exchange rates between the Renminbi and the U.S. dollar and between Renminbi and the HK dollar. Our other gains and losses increased by RMB20.4 million and were mainly attributable to foreign exchange gains in connection with bank balancedollar2ash denominated in U.S. dollar and HK dollar and the appreciation of the U.S. dollar and HK dollar against the Renminbi for the six months ended June 30, 2022.

Our business mainly operates in the PRC, and most of our transactiondolre settled in Renminbi. Since inception, we have financed our business principally through equity financings, with related proceeds denominated in U.S. dollar, HK dollar and Renminbi. We converted a portion of those U.S. dollar proceeds to Renminbi and HK dollar proceeds to U.S. dollar immediately, with the remaining amounts reserved for additional conversiondoto Renminbi as needed. Translation for financial statement presentation purposes of our assets and liabilities exposes udoto currency-related gains or losses and the actual conversion of our U.S. dollar and HK dollar denominated 2ash balancedowill also expose udoto currency exchange risk. We have not engaged in any foreign exchange hedging related activity.

Administrative expenses

Our administrative expenses consisted primarily of employee compensation and related costs. Our administrative expenses increased by RMB5.0 million to RMB68.5 million for the six months ended June 30, 2022 from RMB63.5 million for the six months ended June 30, 2021, which was mainly attributable to i) an increase of RMB6.9 million in consultant fee, which was mainly due to our NDA application related consulting, pricing strategy consulting and economic evaluation consulting of dorzagliatin conducted during the six months ended June 30, 2022 and no such consulting activities conducted during the six months ended June 30, 2021, ii) an adjustment for the decrease of RMB1.2 million in recruitment expense due to our recruitment strategy, and iii) an adjustment for the decrease of RMB0.4 million in meeting fee and RMB0.5 million in travelling expense due to decreased meeting and travelling activities compared to the six months ended June 30, 2021, which was impacted by COVID-19 in the first half of 2022.

Other expenses

We have no other expenses for the six months ended June 30, 2022 as compared to RMB1.6 million (equivalent to USD250,000) for the six months ended June 30, 2021 to establish the Type 2 Diabetes research fund at the Department of Biochemistry and Biophysics at the Raymond and Ruth Perelman School of Medicine of the University of Pennsylvania.

Finance cost

Our finance cost consisted primarily of interest on lease liabilities. Our finance cost was RMB1.8 million for the six months ended June 30, 2022 as compared to RMB2.0 million for the six months ended June 30, 2021, which was mainly attributable to the surrender of old offices in the first half of 2021, after moving into our new headquarter at the end of 2020.

Research and development expenses

The following table sets forth the components of our research and development expenses for the period indicated.

	Six months ended June 30,

Income tax expense

We recognized no income tax expenses for the six months ended June 30, 2022 and the six months ended June 30, 2021.

Liquidity and capital resources

Since our inception, we have incurred net losses and negative cash flows from operations. Our primary use of cash is to fund research and development expenses. Our operating activities utilized RMB116.7 million for the six months ended June 30, 2022. As of June 30, 2022, we had cash and cash equivalents of RMB586.3 million.

As of June 30, 2022, there were no significant investments held by the Company, nor were there any material acquisitions or disposals of subsidiaries, associates and joint ventures during the six months ended June 30, 2022.

Cash Operating Cost

The following table sets out the components of our cash operating cost for the periods indicated:

Cash Flows

The following table provides information regarding our cash flows for the six months ended June 30, 2022 and 2021:

	Six months ended June 30,	
	2022	2021
	RMB'000	*RMB'000*
Net cash used in operating activities	**(116,659)**	(164,290)

Net cash used in financing activities	**(4,293)**	(5,788)
Effect of exchange rate changes	**14,997**	(4,960)
Net decrease in cash and cash equivalents	**(88,931)**	(185,162)

Net Cash Used in Operating Activities

The primary use of our cash was to fund our research and development activities, regulatory and other clinical trial costs, and related supporting administration. Our prepayments and other current assets, accounts payable and other payables balances were affected by the timing of vendor invoicing and payments.

During the six months ended June 30, 2022, our operating activities used RMB116.7 million of cash, which resulted principally from our loss before tax of RMB104.6 million, adjusted for non-cash charges and non-operating cash gains of RMB1.6 million, and by cash used in our operating assets and liabilities of RMB10.5 million. Our net non-cash charges during the six months ended June 30, 2022 primarily consisted of share-based payment expense, depreciation of equipment, right-of-use assets and amortization for intangible assets.

During the six months ended June 30, 2021, our operating activities used RMB164.3 million of cash, which resulted principally from our loss before tax of RMB165.3 million, adjusted for non-cash charges and non-operating cash charges of RMB38.8 million, and by cash used in our operating assets and liabilities of RMB37.8 million. Our net non-cash charges during the six months ended June 30, 2021 primarily consisted of share-based payment expense, depreciation of equipment, right-of-use assets and amortization for intangible assets.

Net Cash from (used in) Investing Activities

Net cash from investing activities was RMB17.0 million for the six months ended June 30, 2022, which resulted primarily from the government grant received to subsidize the Group's leasehold improvement, furniture, fixture and equipment purchased in the prior years and the interest received from bank for short-term deposit, adjusted for the purchase of plant and equipment and intangible assets. Net cash used in investing activities was RMB10.1 million for the six months ended June 30, 2021, which resulted primarily from the purchase of equipment and intangible assets, adjusted for interest received from bank for short-term deposit.

Net Cash used in Financing Activities

Net cash used in financing activities was RMB4.3 million for the six months ended June 30, 2022, which resulted from repayments of lease liabilities, adjusted for proceeds from exercise of share options. Net cash used in financing activities was RMB5.8 million for the six months ended June 30, 2021, which resulted from repayments of lease liabilities, adjusted for proceeds from exercise of share options.

Financial position

Our net current assets decreased from RMB597.7 million as of December 31, 2021 to RMB541.8 million as of June 30, 2022. Current assets decreased from RMB704.6 million as of December 31, 2021 to RMB622.3 million as of June 30, 2022, primarily due to decrease in bank balances and cash from RMB675.2 million as of December 31, 2021 to RMB586.3 million as of June 30, 2022, which was primarily due to net cash expenditure during the six months ended June 30, 2022.

Indebtedness

As of June 30, 2022, our lease liabilities amounted to RMB73.3 million. The following table sets forth our lease liabilities as of the dates indicated:

	As of June 30, 2022	As of December 31, 2021
	RMB'000	*RMB'000*
Current portion	**20,879**	13,296
Non-current portion	**52,413**	58,232
Total	**73,292**	71,528

Our lease liabilities as of June 30, 2022 were from leased properties lease contracts with lease terms of two to four years. As of June 30, 2022, we did not have any other indebtedness.

Qualitative and Quantitative Disclosures About Market Risk

We are exposed to a variety of market risks, including currency risk, interest rate risk, credit risk, and liquidity risk, details of which are set out below. We manage and monitor these exposures to ensure appropriate measures are implemented in a timely and effective manner. We currently do not hedge or consider it necessary to hedge any of these risks.

Currency Risk

Our business mainly operates in the PRC with most of our transactions settled in Renminbi, and our financial statements are presented in Renminbi. Renminbi is not a freely convertible currency. The State Administration of Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of Renminbi into foreign currencies. The value of Renminbi is subject to changes in central government policies and to international economic and political developments affecting supply and demand in the China Foreign Exchange Trade System market. We do not believe that we currently have any significant direct foreign exchange risk and have not used any derivative financial instruments to hedge our exposure to such risk.

Since our inception, we have raised funds through various rounds of offshore financings and received proceeds of such financings in U.S. dollars, HK dollars and Renminbi. We converted a portion of those funds to Renminbi immediately and placed the remaining amount in time deposits. We converted additional amounts to Renminbi as needed. The value of the Renminbi against the U.S. dollars and other currencies may fluctuate and is affected by, among other things, changes in China's political and economic conditions. To the extent that we need to convert U.S. dollars or other currencies we have received in previous financings into Renminbi for our operations, or if any of our arrangements with other parties are denominated in U.S. dollars and need to be converted into Renminbi, appreciation of the Renminbi against the U.S. dollars or other currencies would have an adverse effect on the Renminbi amount we receive from the conversion. Conversely, if we decide to convert Renminbi into U.S. dollars or other currencies for business purposes, appreciation of the U.S. or HK dollars against the Renminbi would have a negative effect on the U.S. dollars or other currencies amounts available to us. We have conducted a sensitivity analysis to determine our exposure to changes in foreign currency rate.

0e.

The following table details our sensitivity to a 5% increase and decrease in the Renminbi against the U.S. dollar and the HK dollar, the foreign currencies to which we may have material exposure. No sensitivity analysis has been disclosed for the Taiwan dollar denominated assets as the impact on profit is immaterial. 5% represents management's assessment of the reasonably possible changes in foreign exchange rate. The sensitivity analysis uses outstanding foreign currency denominated monetary items as a base and adjusts their transla Taiwa53 Td(pta June 30, 2022e Taicreas

Neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's listed securities during the six months ended June 30, 2022.

Employees and remuneration policy

As of June 30, 2022, the Group employed a total of 147 employees, as compared to a total of 146 employees as of December 31, 2021. The majority of the employees are employed in mainland China. For the six months ended June 30, 2022, the staff costs (including Directors' emoluments but excluding any contributions to pension scheme) were approximately RMB80.4 million as compared to RMB85.4 million for the six months ended June 30, 2021.

The Group will continue to offer competitive remuneration packages, discretionary share options and bonuses to staff. The Group's employee remuneration policy is determined by taking into account factors such as remuneration in respect of the overall remuneration standard in the industry and employee's performance. The management reviews the Group's employee remuneration policy and agreements on a regular basis. Moreover, the social insurance contributions are made by the Group for its PRC employees in accordance with the relevant PRC regulations.

The Group also provides continuous learning and training programs to its employees to enhance their skills and knowledge, so as to maintain their competitiveness and improve their working efficiency. The Group did not experience any major difficulties in recruitment, nor did it experience any material loss in manpower or any material labor dispute during the six months ended June 30, 2022.

The Company has also adopted a Pre-IPO Share Incentive Scheme and a Post-IPO Share Option Scheme. Please refer to the section headed "Statutory and General Information – D. Share Incentive Schemes" in Appendix IV to the Prospectus for further details.

Use of net proceeds from the Global Offering

The Shares were listed on the Stock Exchange on September 14, 2018. The net proceeds from the Global Offering amounted to RMB747.2 million (including the issue of additional Shares pursuant to the partial exercise of the over-allotment option on October 5, 2018) which have been, and will continue to be, applied according to the intentions set out in the section headed "Future Plans and Use of Proceeds" in the Prospectus. We expect that a portion of the net proceeds will be carried forward and utilized in the 2023 financial year due to a slight adjustment to the timeline for the development of our manufacturing capabilities.

The following table sets forth the status of the Company's use of proceeds raised in the Global Offering as of June 30, 2022:
